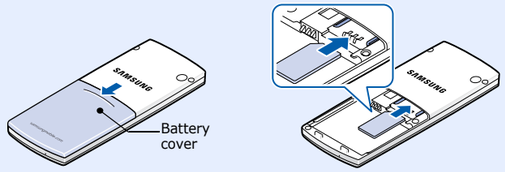
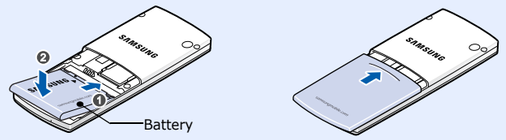
Installing the SIM card and battery

1. Remove the battery cover and insert the SIM card.

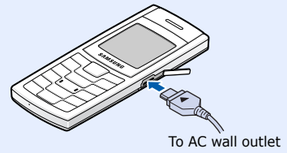


2. Install the battery and reattach the cover.



Charging the battery

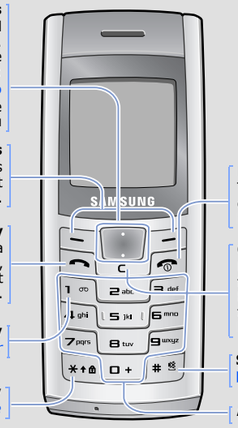
1. Plug the supplied travel adapter.



2. When charging is finished, unplug the adapter.

Note: Do not remove the battery from the phone without unplugging the adapter first. Otherwise, the phone may be damaged.

Phone layout and key functions



Navigation keys
In Menu mode, scroll through menu options. In Idle mode, access the following menus:
Up: **FM Radio**
Down: your favourite menu

Soft keys
Perform functions indicated by the text above the key.

Dial key
Make and answer a call. In Idle mode, retrieve the most recent calls.

Voicemail server key
▶ *Voicemail server*

Keypad lock key
▶ *Keypad lock mode*

Power/End key
Turn the phone on or off when pressed and held. Also, end a call.

Cancel/Clear key
Delete characters from the display. Return the display to the previous menu level.

Silent mode key
▶ *Silent mode*

Alphanumeric keys

Silent mode Press and hold # in Idle mode to disable all sounds on the phone. To exit, press and hold this key again.

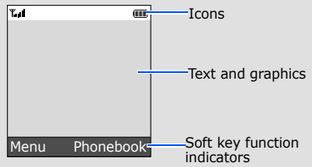
Voicemail server Press and hold **1** in Idle mode to access your voicemail server.

Keypad lock mode Lock the keypad, when pressed and held * in Idle mode, to ignore accidental key pressing. To unlock, press the **Unlock** soft key and then this key.

SOS mode Press **C** four times when the keypad is locked to send an SOS message to preset numbers. Once the SOS message is sent, the phone will change to SOS mode and will receive calls only from the registered recipients. Upon receiving a call from the SOS message recipients, the phone will automatically answer the call. Press to exit SOS mode.

Display

Your phone is in Idle mode when you are not on a call or using a menu. You must be in Idle mode to dial a phone number.

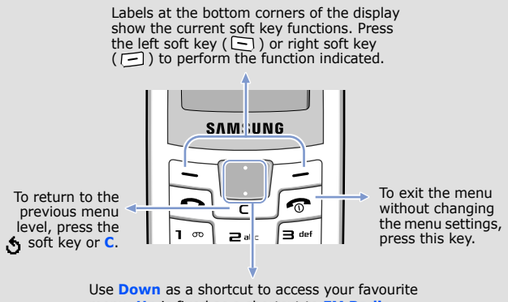


Your phone displays the following status indicators on the top of the screen:

Icon	Description
	Received signal strength
	Keypad lock mode
	Call in progress
	Out of your service area; you cannot make or receive calls except for emergency calls
	GPRS network
	Roaming network
	Silent mode
	Call ringer set to vibrate
	Call diverting feature active
	New text message
	New voicemail message
	Alarm set
	Battery power level

Using the menus

In Idle mode, press the **Menu** soft key to enter the main menu.



Labels at the bottom corners of the display show the current soft key functions. Press the left soft key ( ) or right soft key ( ) to perform the function indicated.
To return to the previous menu level, press the soft key or C.
To exit the menu without changing the menu settings, press this key.
Use Down as a shortcut to access your favourite menu. Up is fixed as a shortcut to FM Radio.
1. In Idle mode, press the Menu soft key.
2. Select Phone settings → Shortcut.
3. Select Key down.
4. Select a menu to be assigned to the key.

To select or modify a menu or feature:

1. In Idle mode, press the **Menu** soft key.
2. Press the Navigation keys to reach a desired menu and then press the **Select** soft key.
3. If the menu contains any submenus, locate the one you want by pressing the Navigation keys. Press the **Select** soft key to enter the submenu.

   If the selected menu contains additional submenus, repeat this step.
4. Press the Navigation keys to find the setting of your choice.
5. Press the **Select** soft key to confirm your chosen setting.

Switching on or off the phone

1. Press and hold for more than one second to switch on the phone.
2. If the time & date message appears, press the **Yes** soft key and set the time and date by the following onscreen instructions.
3. To switch off the phone, press and hold for more than two seconds.

Changing the display language

1. In Idle mode, press the **Menu** soft key.
2. Select **Phone settings** → **Language**.
3. Select a language.

Making a call

1. In Idle mode, enter an area code and phone number, and press .
2. When you want to end the call, press .

Answering a call

1. When the phone rings, press the **Accept** soft key or to answer a call.

   To reject the call, press the **Reject** soft key or .
2. When you want to end the call, press .

Adjusting the volume

1. In Idle mode, press the **Menu** soft key.
2. Select **Sound settings** → **Ring volume**.
3. Press the Navigation keys to adjust the volume level.
4. Press the **OK** soft key.

Changing a ringtone for calls

1. In Idle mode, press the **Menu** soft key.
2. Select **Sound settings** → **Ringtone**.
3. Select a ringtone.

Redialling recent numbers

1. In Idle mode, press .
2. Press the Navigation keys to scroll to the number you want.
3. Press to dial the number.

Entering text

Changing the text input mode

In a text input field, press the right soft key and select the language mode you want.

- T9 : T9 mode
- A : ABC mode
- 1 : Number mode
- None: Symbol mode

T9 mode

1. Press **2** to **9** to start entering a word. Press each key once for one letter.

   Example: To enter "Hello" in T9 mode, press **4**, **3**, **5**, **5**, and **6**.

   T9 predicts the word that you are typing, and it may change with each key that you press.

2. Enter the whole word before editing or deleting characters.

3. When the word displays correctly, go to step 4. Otherwise, press **0** to display alternative word choices for the keys that you have pressed.

   For example, *Of* and *Me* use **6** and **3**.

4. Press # to insert a space and enter the next word.

ABC mode

Press the keys labelled with the character you want:

- once for the first character
- twice for the second character
- and so on.

For example, press **2** three times to enter "C" and **5** two times to enter "K."

Number mode

Press the keys corresponding to the digits you want.

Symbol mode

Press the number keys corresponding to the symbol you want and press the **OK** soft key. You can press the Navigation keys to display more symbols.

Tips for entering text

- To move the cursor, press the Navigation keys.
- To delete characters one by one, press **C**. To clear the display, press and hold **C**.
- To insert a space between characters, press #.
- To change case in T9 mode or ABC mode, press *.
- To enter punctuation marks in T9 mode or ABC mode, press **1**.

Sending an SMS message

1. In Idle mode, press the **Menu** soft key.
2. Select **Messages** → **Write new**.
3. Enter the message text.
4. Press the **Options** soft key and add items using the following options:
   - **Add objects**: add sounds, images, or animated images.
   - **Add templates**: add text templates.
   - **Add phonebook**: add Phonebook contacts.
   - **Add bookmark**: add bookmark items.
5. Press the **Options** soft key and select **Send only**, **Save and send**, or **Save only**.
6. If you select **Save and send** or **Save only**, select a memory location.
7. Enter a destination number and press the **OK** soft key.

Quick feature reference

This section provides brief explanations of features on your phone.

Feature	Description	Select
Find a contact	Search for contacts in Phonebook.	Phonebook > Search
Add a new contact	Add a new contact to Phonebook.	Phonebook > New entry
Search group	Search for Phonebook contacts in caller groups.	Phonebook > Group search

Menu shortcuts	Set the Navigation keys as shortcuts to access your favourite menus directly.	Menu > Phone settings > Shortcut
Reset the phone	Reset the phone to the factory default settings.	Menu > Phone settings > Reset settings

Important safety precautions

Read these guidelines before using your wireless phone. Failure to comply with them may be dangerous or illegal.

Drive safely at all times

Do not use a hand-held phone while driving; park the vehicle first.

Switching off when refuelling

Do not use the phone at a refuelling point (service station) or near fuels or chemicals.

Switching off in an aircraft

Wireless phones can cause interference. Using them in an aircraft is both illegal and dangerous.

Switching off near all medical equipment

Hospitals and health care facilities may be using equipment that could be sensitive to external RF energy. Follow any regulations or rules in force.

Interference

All wireless phones may be subject to interference, which could affect their performance.

Special regulations

Follow any special regulations in force in any area and always switch off your phone whenever it is forbidden to use it.

Water resistance

Your phone is not water-resistant. Keep it dry.

Sensible use

Use only in the normal position (held to the ear). Avoid unnecessary contact with the antenna when the phone is switched on.

Emergency calls

Key in the emergency number for your present location, then press . Do not end the call until given permission to do so.

Small children and your phone

Keep the phone and all its parts including accessories out of reach of small children.

Accessories and batteries

Use only Samsung-approved batteries and accessories, such as headsets and PC data cables. Use of any unauthorised accessories could damage your phone and may be dangerous.

CAUTION Risk of explosion if a battery is replaced by an incorrect type. Dispose used batteries according to the instructions.

At very high volume, prolonged listening to a headset can damage your hearing.

Qualified service

Only qualified service personnel may repair your phone.

SAR information

Your wireless phone is a radio transmitter and receiver. It is designed and manufactured not to exceed the emission limits for exposure to radio frequency (RF) energy set by the European Union (EU) Council. These limits are part of comprehensive guidelines and establish permitted levels of RF energy for the general population. The guidelines are based on the safety standards that were developed by independent scientific organisations through periodic and through evaluation of scientific studies.

The standards include a substantial safety margin designed to assure the safety of all persons, regardless of age and health.

The exposure standard for wireless phones employs a unit of measurement known as Specific Absorption Rate (SAR). The SAR limit set by the EU Council is 2.0W/kg. The highest SAR value for this model phone was 0.965 W/kg.
